EDUCATION

University of Massachusetts Dartmouth

SEP 2018 – AUG 2019 | Master of Business Administration

University of Massachusetts Dartmouth

SEP 2015 – MAY 2018 | Bachelor of Science in Management Information Systems

EXPERIENCE

Risk Analyst I | FIS | Jacksonville, FL

AUG 2020 – CURRENT

- Built and maintained SSAS tabular models utilizing Visual Studio
- Solved complex problems utilizing SQL, DAX, and Power Query
- Created views and scripted code using SQL Server Management Studio
- Utilized Scrum project management methodology to deliver minimal vial products to stakeholders.
- Developed a SharePoint List environment to help the team maintain inventories across data warehouses and reports. Additionally, the lists are used for auditing and change management.
- Collaborated with internal stakeholders to complete ad hoc requests, including new reports and data research
- Specialized in report areas such as Vulnerabilities, OS Server Patching and Secure Configuration Management
- Created many Power BI reports that are utilized across the organization

Yield Analyst | Collette | Pawtucket, RI

JAN 2019 – MAY 2020

- Queried data from SQL Servers and OLAP to prepare and validate data for reports in Excel and Power BI
- Generated 40+ ad-hoc reports for team members in Excel using Power Pivot, DAX and Pivot Tables
- Transitioned reporting within the Revenue Management Department from Excel to Power BI
- Developed 15 reports and dashboards in Power BI to help teams across the company to make data driven decisions through dynamic reporting
- Analyzed hundreds of tours of high and low forecasted loads to make recommendations to the inventory and yield teams to help maximize departure loads and revenue

ERP Implementation Intern | Zumbro River Brand | Albert Lea, MN

MAY 2017 - AUG 2017 | JAN 2018 | MAY 2018 - AUG 2018 | JAN 2019

- Updated 100+ key codes and corresponding finished product paperwork to prepare for the ERP system (ProcessPro)
- Inputted various data into the ERP system, including key codes and product formulas
- Assisted quality team in updating the quality management system
- Learned every day-to-day operation within the ERP system to help train and support team members across all departments
